What this survey is about

ADSS Cymru

Leading Social Services in Wales

We asked the **Association of Directors of Social Services** to **review**:

- day services
- and **respite** services in Wales.

Review means to look at something and see if it has made a difference. It looks at what was done well, and what could be made better.

Respite is when someone who needs support stays somewhere for a short time. It may be to give a carer a rest.

The **review** looked at how the pandemic changed or affected services.

The **review** was published in March 2024. [You can read an easy read version of the review here.](#)

We have based the questions in this survey on the findings and recommendations made in the **review**.

We want to learn about people's experiences of day services and **respite** services across Wales.

This will help us to:

- understand what is working well
- and what we need to do to deal with any issues.
